

would you pls  
make arrangements  
for the two of us to  
visit OMIB (Hilda  
Shuler (if I re-  
call you correctly)  
either tomorrow  
(anytime) Monday  
PM, or Tues between  
between 10:30 and  
noon. We need

where OMB & GSA  
are on the "Fed  
Employee Relocation  
Allowance Reform Act  
of 1983", where they  
are going, Schedule  
problems, etc.  
Also would like to  
to share with us  
the views expressed  
by IC members  
(CIA, State, NSA, FBI)  
who is willing.

NO - not done

Let me know this  
morning, if possible  
if we are on and  
when.

Thanks

## MEMORANDUM FOR THE RECORD

SUBJECT: Telephone Conversation with Steve Berry,  
Minority Counsel, HPSCI, Regarding Domestic  
Relocation Allowances

STAT

1. On 7 September 1983 I called Steve Berry concerning possible scheduling of hearings by HPSCI on the issue of domestic relocation allowances. In a 25 March 1983 letter to Executive Director [redacted] from Chairman Boland, a statement was made that the Committee planned to schedule hearings in the near future on this issue because relocation allowance problems were being experienced by other agencies in the Intelligence Community as well as by the CIA.

2. Steve informed me that no hearings were scheduled at this point in time. I asked whether he felt any hearings would be scheduled this fall and he indicated that due to hearings on Central America, FOIA, and the Fowler bills there would be no time to schedule any hearings on domestic relocation before the end of the first session. However, he does feel that this is an issue that can receive bipartisan support from the Committee.

3. Steve suggested we look at the government-wide domestic relocation legislation currently being worked on at OMB to see if we can use some of that proposal as a basis for Intelligence Community relief. He emphasized that the Committee is adamant that this issue be resolved on a community-wide basis rather than through individual legislative proposals for each intelligence agency experiencing problems in this area. He feels that if CIA can work with the other affected intelligence agencies to come up with a joint legislative proposal there would be a good chance of hearings on the issue in the second session of this Congress.
